Re: City of Jennings 2026-2027 Budget Message

The Fiscal Year 2026–2027 budget reflects the City's continued commitment to financial stewardship, infrastructure investment, and community development. Supported by stable revenue growth, strong fund balances, and significant state and federal grant assistance, this budget positions the City to address critical infrastructure needs, support economic development opportunities, and maintain essential public services. While the City faces certain fiscal challenges related to the loss of dedicated millage revenues, careful planning and responsible financial management have allowed the City to continue current service levels and continue to analyze feasible paths forward.

#### **General Fund**

General Fund revenues remain stable, with actual one-cent sales tax collections for FY 2025–2026 estimated at \$3.4 million and projected to increase to approximately \$3.47 million, a growth of two percent. Other major revenue sources, including occupational licenses, state-shared revenues, video poker revenues, and franchise fees, are expected to remain relatively unchanged.

Careful financial management has allowed the General Fund to build a healthy fund balance, enabling the City to support increasing Jennings Police Department base pay from \$15 to \$16 and adding incentive pay for employees that attain certificates and accreditation that enhance retention and training capabilities. The fund also alleviates stress associated with major capital and economic development initiatives. The proposed budget includes a transfer of \$2.5 million to the Utility Fund for the construction of the new Water Treatment Plant and a transfer of \$640,000 to Economic Development District Fund 21 to fund the City's share of DOTD mandated improvements associated with Chick-fil-A.

#### **Utility Fund**

The Utility Fund budget includes a proposed two percent increase in water and sewer rates to support operations and continued infrastructure investment. The City has been successful in obtaining outside funding for its water system improvements, including \$3.64 million previously received through the federal ARPA program and \$8 million from the Water Sector Program for construction of the new water treatment plant. Capital expenditures within the Utility Fund this fiscal year total \$8.87 million to finish Jennings' water plant repairs and expansion. These investments are essential to ensuring reliable water service and supporting future growth.

#### **Street Fund**

The Street Fund experienced a significant challenge during the fiscal year as the Street Millage was not renewed by voters during the May 16, 2026 election. While approximately \$690,000 in millage revenue will still be collected during FY 2026–2027 due to the timing of property tax collections, future funding for street maintenance and improvements will require further evaluations and may require an over reliance on alternative funding sources. No major equipment purchases are planned within the Street Fund during the upcoming fiscal year. Due to the magnitude of lost funding, the property tax is likely to resurface when allowable dates are confirmed.

### **Jennings Carnegie Public Library Fund**

The Jennings Carnegie Public Library Fund also faces a substantial financial challenge following the expiration of the Library Millage on December 31, 2025. Voters did not approve a renewal of the dedicated property tax, resulting in the loss of approximately \$310,000 in annual operating revenue. The library will begin the fiscal year with reserves of approximately \$570,000 and will utilize those reserves to maintain services and operations until further analysis is complete. No immediate operational changes are planned; however, the City and Library leadership will continue evaluating long-term funding solutions to preserve this important community asset.

### **Special Revenue Funds**

Special Revenue Fund 09 is funded by Jeff Davis Parish Landfill royalties. It includes several community enhancements and quality-of-life projects. Planned investments include the completion of I-10 Park's walking path, Fire Station 2 remodel and renovations, street sign improvements, funding to design and analyze the affordability of a new public pool, funding to design splash pad and parking at I-10 park, along with a master plan to refurbish Jennings parks and recreation complex at East Academy vs building a new municipal park. Total capital expenditures budgeted for Fund 09 are approximately \$2.19 million.

### **Fund 14 – 1994 One Cent Sales Tax**

The 1994 One Percent Sales Tax Fund continues to support major infrastructure investments throughout the City. Budgeted projects include drainage improvements, the Zigler Memorial extension, airport-related improvements for economic development, and engineering services for potential road widening and repairs. The city also completed our largest Asphalt Overlay Project during FY 2025–2026, the total project cost \$5.2 million.

### **Debt Management**

The City remains committed to responsible debt management. Outstanding bond obligations associated with the construction of City Hall, Government Facilities Building, Jennings City Court and public facilities total approximately \$3.38 million. Final debt payments are scheduled for 2033 and 2035. Since July 1, 2017, the city has never relied on debt, bonds, or borrowed funds to deliver projects.

### **Conclusion**

The FY 2026–2027 budget reflects both opportunities and challenges. Significant investments in utility infrastructure, parks, streets, and economic development will continue to enhance the quality of life for residents and support economic growth. At the same time, the failure of both Jennings Street millage and Jennings Carnegie Public Library millage highlights the need for careful long-term financial planning. Through prudent budgeting, strategic use of reserves, and long-term incremental planning, the City remains well-positioned to maintain essential services while still delivering an affordable quality of life.

Sincerely,

**ORDINANCE NO 1828**
